

What is claimed is:

1. A display apparatus for use in an electronic equipment, having a display panel for displaying images, comprising:
 - a storage part contained in said electronic equipment for storing display data representing display images to be displayed on said display panel; and
 - a writing part for receiving display data from the outside of said electronic equipment to write into said storage unit as said display data.
2. A display apparatus according to claim 1, wherein said electronic equipment comprises a device body portion, and a display panel portion including a display panel and said storage part.
3. A display apparatus according to claim 1 or claim 2, wherein said storage part is configured to be removable from said electronic equipment.
4. A display apparatus according to claim 1 or claim 2, wherein said storage part comprises a flash memory.
5. A display apparatus according to claim 3, wherein said storage part comprises a flash memory.
6. A display apparatus according to claim 1, wherein said data writing part writes display data accumulated in a predetermined site into said storage part through a communication network.
7. A display apparatus according to claim 6, wherein said communication network is the Internet through which said display data accumulated in said site being downloaded into

said storage part.

8. A display apparatus according to claim 1, wherein said data writing unit writes arbitrary display data into said storage part.

9. A display apparatus according to claim 1, wherein said data writing part captures externally existing arbitrary display data and writes the same into said display part.

10. A display apparatus according to claim 8 or claim 9, wherein said arbitrary display data is an image taken by a user using an image shooting device.

11. A display apparatus according to claim 10, wherein:

software for capturing said arbitrary display data and writing the same into said storage part is stored in a predetermined site; and

said data writing part downloads said software through
the Internet.

12. A display apparatus according to claim 1, wherein said display data represents a moving image.

13. A display apparatus according to claim 1, wherein said display data represents a still image.

14. A display apparatus according to claim 1, wherein said electronic equipment is a vehicle-mounted electronic equipment.
